

## CASE STUDIES : SMELTER

PROJECT :  
COPPER SMELTING PLANT

LOCATION :  
GRESIK, INDONESIA

OWNER :  
CHYODA INTERNATIONAL INDONESIA

YEAR :  
1996

### WHAT WE DELIVERED

DIAMETER

1200 MM

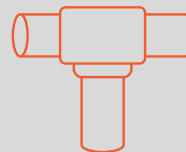

PRESSURE

10 BAR

METERS

1 KM

JOINTS

BUTT AND WRAP

DELIVERING

PIPE RACK ABOVEGROUND

Chiyoda International Indonesia, Japan, selected ORI's 1200mm pipes for their Copper Smelting Plant project in Gresik. Installed in a pipe rack aboveground, these pipes were designed to meet the rigorous demands of smelter operations. The project, completed in 1996, highlights ORI's commitment to delivering reliable and durable solutions in challenging industrial environments
